

# Register your family's bikes with

**Over THREE MILLION bicycles** lost or stolen each year in the United States alone are unable to be returned to their rightful owners due to lack of identification. By registering with BikeFinder™, you greatly increase your chances of getting your bike back.

**Children rarely carry personal identification**, especially when riding their bikes. If your child is involved in an accident, BikeFinder™ registration can help EMS or law enforcement personnel contact a parent, guardian or teacher.

**A match with either the bicycle factory serial number** or the BikeFinder™ Identification Decal shows emergency and law enforcement personnel that the bicycle is registered with the BikeFinder™ Foundation and that emergency medical and recovery information is immediately accessible on line.

See **FREE Demo** on line.
